We can see above why this nation is in such bad shape. We expect the nonsense from democrats, but republicans must be better. America is turning into a globalist, totalitarian nation thanks to the likes of those above.

Average Heritage House Republican Score = 65% FAILURE

Average Heritage Senate Republican Score = 56% FAILURE

Judging from these scores is it any mystery why this nation is in such a bad state? However, we have a **tremendous opportunity** with this batch of globalists, leftist and RINOs seeking re-election. This single election can tip the scales in favor of retaining US Sovereignty and help implement the President Trump and American agenda. Of all those seeking reelection **only Senator Ted Cruz has a passing Heritage score**. We can eliminate 7 RINOs in the Senate. If we can also get a new Majority Leader and fire Mitch McConnell there is hope for America.
